UNDERSTANDING SECURITY

Yes, It's True...Just About Anybody Will Cut A Key For You, But Will It Work?

Look around and you will find a variety of places to have keys duplicated. Everyone from car parts stores, lumber yards and even grocery stores, will offer to cut a duplicate key, but will they work? Maybe, maybe not.

An Improperly Cut Key Can Damage a Lock

Sometimes you will get a key cut and find that it "kind of works". If the key machine operator suggests to "use it a while, until it breaks in", use caution. As the key is "working in", the key may actually be destroying the inside of your locks. Each time the key turns, it can wear down the inside of the lock. As the

inside wears, the lock gets sloppier. This damage lowers the security and shortens the service life of your lock.

Have An Expert Cut Your Keys

As a professional locksmith, we will make keys for you that fit your locks properly. And one other thing, our
